**Re: Zoning & Permitting**

**To Whom It May Concern;**

Lamb County does not currently have any Zoning or Permitting requirements. However, if your project is located within the City Limits or Extra Territorial Jurisdiction of any of our incorporated areas you are required to contact that entity.

We do expect that all State and National requirements be met and all construction meet industry standards.

If you have questions or need further clarification, please feel free to contact the County Judge's office at the email or phone number below.
